Price	1.280.000€ - VAT Paid
SCADENZA CERTIFICATO SICUREZZA	
Non applicabile	

PRESENTATION

Splendid owner's yacht in conditions comparable to new. Configured at the top both from a technical and comfort standpoint. Among the technical highlights, we have the carbon mast equipped with the FurlerBoom system for rolling the mainsail into the boom. The boat is designed to be managed with a reduced crew thanks to the maneuvers relayed to the electric winches in easy sail configuration, the electric genoa roller, the electric mainsheet winch, and the bow and stern propellers. The interiors are elegantly finished in teak, providing space for the numerous accessories expected from a boat of this category. The X56 is the top model of the prestigious Danish shipyard and is built using epoxy resin infusion to maximize the rigidity and lightness of the hull. The result is a modern, high-performance, and undeniably elegant vessel, enhanced by the special dark gray hull coloring. In short, this crafted boat is configured to sail fast, safely, and in relaxation without any limits other than your own time...

MOTORIZATION

Engine	Yanmar
Power	108HP
Engine hours	1000
Transmission	Line of axis
Propeller	Flexofold 3 folding blades

LAYOUT

Cabins	3
Berths	6 + 0
Bathrooms	3
Sail storage	Si
Crew cabin	Si
