PRESENTATION

Owner's yacht in excellent condition, equipped and furnished for long voyages. It is configured with three cabins and three heads, including a luxurious owner's cabin at the stern with its own head equipped with a shower box. At the bow, there are two twin double cabins, each with its own en-suite head. However, it is possible to remove the partition separating them to create a single large space. Among the many included accessories are hot/cold air conditioning (two units) in all areas, a 6.5 Kw Onan generator, solar panels, electric toilets, a washer-dryer, and a freezer. Everything is easy to maneuver thanks to the joystick that controls the pod and the bow propeller. Even under sail, the three electric winches exempt you from any effort. Absolutely not to be missed for those who love to sail easy and safe. Commissions included in the selling price.
